This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

VOL. VIII. WASHINGTON, D. C., JANUARY, 1892. No. 1.

Entered as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses; and in addition, the titles of all public Acts, Treaties, and Maps.

The arrangement of the titles is alphabetical, under authors' names as regards special treatises, and under topics as regards Congressional documents. At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

Subscription price $5.00 per annum.

Note: All correspondence relating to the Catalogue or to the publications of the United States Government should be addressed to the publishers,

W. H. LOWDERMILK & CO.,
1424-1426 F STREET, WASHINGTON, D. C.

We beg to announce that we have purchased all the rights in this periodical, and will issue it hereafter regularly and promptly early in each month. Mr. Hickcox will compile and edit the work as heretofore, and no change will be made in its general character. As rapidly as the matter can be prepared we shall print all the numbers necessary to complete the back volumes and send them to the subscribers of those volumes.

The importance of this catalogue as a systematic and accurate record of the vast, varied, and important number of books and documents issued annually by Congress and the Departments

must be apparent to every person who has occasion to consult such publications. The irregularity of its appearance in the past was due to want of support sufficient to pay its working expenses, and we trust that such reason may not again discourage its prompt appearance, or worse, its discontinuance entirely. The enterprise is not likely to prove very remunerative, but we hope at least to command enough patronage to repay the actual outlay of money.

W. H. LOWDERMILK & CO.

The above announcement will be gratifying to the patrons of this publication. The undersigned desires to congratulate those who having been loyal under adverse circumstances have at last a guarantee that the catalogue will hereafter reach them regularly, and that the unfinished volumes will be speedily completed. The seven years of hard, but unsuccessful, labor are in a measure redeemed through the enterprise, intelligence, and liberality of Messrs. Lowdermilk & Co. It is earnestly requested that former subscribers will promptly and cordially co-operate with the new publishers in supplying the key, and the only key to the varied and comprehensive publications of the United States government.

Life-Size Portrait Etching of George Washington.

By HENRI LE FORT, of Paris.

This great work by the President of the French Society of Etchers has been pronounced everywhere to be a masterpiece of art. Both the French and American governments promptly gave it the stamp of their approval by becoming early purchasers. We have bought from the artist all the copies remaining in his possession, and offer them as follows:

Signed Artist's Remarque Proof, on Japan paper, . . $100.00
Ordinary Prints 18.00

HENRI LE FORT'S GEORGE WASHINGTON.

Between the two windows of the late General Grant's library is a large portrait bust of Washington, engraved by Henri Le Fort, and sold by Mr. McLean and others to be the best presentment they had seen of the great founder of American independence. Mr. Huntington, a well-known amateur, possesses three hundred portraits of Washington, and he claims that Henri Le Fort's etching is the best. This celebrated French artist obtained the following rewards: A medal at the Paris Salon in 1881; a medal at the Boston Exposition in 1883; a diploma of honor at Caen; a medal at Amsterdam, and one this year at Antwerp. All these medals were awarded on HENRI LE FORT'S LIFE-SIZE ETCHING OF GEORGE WASHINGTON.—*Daily News* (*Philadelphia*), *December* 18, 1888.

Life-Size Portrait Etching of Christopher Columbus.

By F. FOCILLON, of Paris.

This is a companion picture to Le Fort's Washington by Le Fort's great rival, whose etchings are well known in America. His work has not quite the boldness of Le Fort, but it excels in attention to fine detail, and has received unqualified approval from critics.

There have been printed twenty-five special remarque proofs and 100 double remarque proofs on parchment. Later on will be printed 100 remarque proofs on Japan paper and 500 on Holland paper. We can supply at present—

Special proofs on parchment, signed, 3 remarques (the centre remarque being a pen sketch). $100.00
Double remarque proofs, parchment, signed. 72.00

Life-Size Portrait Etching of George Washington.

BY HENRI LE FORT, OF PARIS.

This great work by the President of the French Society of Etchers has been pronounced everywhere to be a masterpiece of art. Both the French and American governments promptly gave it the stamp of their approval by becoming early purchasers. We have bought from the artist all the copies remaining in his possession, and offer them as follows:

Signed Artist's Remarque Proof, on Japan paper . . . $100.00

HENRI LE FORT'S GEORGE WASHINGTON.

Between the two windows of the late General Grant's library is a large portrait bust of Washington, engraved by Henri Le Fort, and sent by Mr. McLean and others as to the best presentment they had seen of the great founder of American independence. Mr. Huntington, a well-known amateur, possesses three hundred portraits of Washington, and he claims that Henri Le Fort's etching is the best. This celebrated French squarefield obtained the following rewards: A medal at the Paris Salon in 1881; a medal at the Boston Exposition in 1883; a diploma of honor at Caen; a medal at Amsterdam, and one this year at Antwerp. All these medals were awarded on HENRI LE FORT'S LIFE-SIZE ETCHING OF GEORGE WASHINGTON.—*Daily News* (Philadelphia), *December 18, 1885.*

Life-Size Portrait Etching of Christopher Columbus.

BY F. FOCILLON, OF PARIS.

This is a companion picture to Le Fort's Washington by Le Fort's great rival, whose etchings are well known in America. His work has not quite the boldness of Le Fort, but it excels in attention to fine detail, and has received unqualified approval from critics.

There have been printed twenty-five special remarque proofs and 100 double remarque proofs on parchment. Later on will be printed 100 remarque proofs on Japan paper and 500 on Holland paper. We can supply at present—

Special proofs on parchment, signed, 3 remarques (the centre remarque being a pen sketch) $100.00
Double remarque proofs, parchment, signed 72.00

Life-Size Portrait Etching of George Washington.

BY HENRI LE FORT, OF PARIS.

This great work by the President of the French Society of Etchers has been pronounced everywhere to be a masterpiece of art. Both the French and American governments promptly gave it the stamp of their approval by becoming early purchasers. We have bought from the artist all the copies remaining in his possession, and offer them as follows:

Signed Artist's Remarque Proof, on Japan paper... $100.00
Ordinary Prints 18.00

HENRI LE FORT'S GEORGE WASHINGTON.

Between the two windows of the late General Grant's library is a large portrait bust of Washington, engraved by Henri Le Fort, and sold by Mr. McLean and others to be the best presentment they had seen of the great founder of American independence. Mr. Huntington, a well-known amateur, possesses three hundred portraits of Washington, and he claims that Henri Le Fort's etching is the best. This celebrated French aquafortist obtained the following awards: A medal at the Paris Salon in 1870; a medal at the Boston Exposition in 1883; a diploma of honor at Caen; a medal at Amsterdam, and one this year at Antwerp. All these medals were awarded on HENRI LE FORT'S LIFE-SIZE ETCHING OF GEORGE WASHINGTON.—*Daily News (Philadelphia), December 18, 1885.*

Life-Size Portrait Etching of Christopher Columbus.

BY F. FOCILLON, OF PARIS.

This is a companion picture to Le Fort's Washington by Le Fort's great rival, whose etchings are well known in America. His work has not quite the boldness of Le Fort, but it excels in attention to fine detail, and has received unqualified approval from critics.

There have been printed twenty-five special remarque proofs and 100 double remarque proofs on parchment. Later on will be printed 100 remarque proofs on Japan paper and 500 on Holland paper. We can supply at present—

Special proofs on parchment, signed, 3 remarques (the centre remarque being a pen sketch)..... $100.00
Double remarque proofs, parchment, signed..... 72.00

"COGLEY'S DIGEST"

OF THE

DISTRICT OF COLUMBIA.

Being a complete digest of all the reports of the old circuit court and of the present supreme court of the District of Columbia, extending from 1801 to 1891, including the 19th volume of the District of Columbia reports.

It is more than a digest. It is a compilation of valuable statutes, consisting of the laws of Maryland and British statutes which have been judicially decided to be in force in the District of Columbia, and Revised Statutes of the United States in force not only in the District, but in all of the States and Territories, and also of the Revised Statutes relating expressly to the District, together with rules of court. The criminal United States Statutes, under the head of criminal law, and those relating to evidence, are worth the price of the book to any practitioner in the Federal courts, as they obviate the necessity of handling the unwieldy Revised Statutes. In brief, this book supplies the practitioner with all the law relating to the District of Columbia, and also with valuable statutes applicable to all parts of the United States.

The old laws of Maryland, which, by the terms of the cession to the United States of that portion of the State of Maryland now constituting the District of Columbia, became and still are the greater portion of the statutory law of the District, have long been out of print, and can only rarely be obtained second hand, in a mutilated condition, at an extortionate price.

While the British Statutes have been republished, yet their incorporation is not only convenient but money-saving to the purchaser. They are to a certain extent, by virtue of statutory enactment, in force in most, if not all, of the States. They form the ground-work of most of our law, particularly that relating to property and its transfer.

Millions of dollars are sent every year from all parts of the United States for investment in Washington, and certainly the home attorneys of the parties sending should have the means of properly advising them as to the laws of the District of Columbia. Certainly every public and Bar Association law library should have it.

The reports have been so fully digested that a complete understanding of each case can be had, and the book will be a good substitute for the reports to those who have not got and are not now prepared to purchase them. Of the series, Cranch's Circuit Court are out of print, and from this Digest only can their contents be obtained.

The work is artistically printed on good paper, in bold-face brevier type, making it easy to read and at the same time permitting a great deal of reading matter to be put on a page. There are 715 double-column pages, and if the same matter were printed in the same sized type and page the work would make two volumes of ordinary sized text-books of from 600 to 700 pages. There is a table of cases and an index.

The book is handsomely bound in law sheep.

Price, $10, net.

UNITED STATES GOVERNMENT PUBLICATIONS.

MONTHLY CATALOGUE.

JOHN H. HICKCOX, - - - - - - - - - Editor.

VOL. VIII. WASHINGTON, D. C., NOVEMBER, 1892. No. 11.

Entered as second-class matter at the Post Office, Washington, D. C.

This Catalogue contains the titles of all the current official publications of the United States, including the reports and papers issued by Departments, Bureaus, Commissions, and other organizations of the Government; all the documents printed by order of Congress—that is to say, the Executive Documents, Reports of Committees, Miscellaneous Documents, Journals, and Debates of both Houses; and in addition, the titles of all public Acts and Treaties.

The arrangement of the titles is alphabetical, under authors' names as regards special treatises, and under topics as regards Congressional documents. At the same time the Departments, Bureaus, Commissions, etc., are credited with the works issued under their supervision. A valuable feature of the work consists in the separate entry of every paper or contribution contained in Reports, Bulletins, or other publications of the Government. A general Index at the end of the volume.

Subscription price $5.00 per annum.

Note: All correspondence relating to the Catalogue or to the publications of the United States Government should be addressed to the publishers,

W. H. LOWDERMILK & CO.,
1424-1426 F STREET, WASHINGTON, D. C.

We send sample copies of the November number of the CATALOGUE to several thousand libraries and gentlemen whom we think are interested in knowing what the United States Government is issuing from the greatest printing office in the world. The books pertaining to ethnology, geology, anthropology, entomology, zoölogy, agriculture, surveys, natural history, discovery, finance, political economy, naval and war matters, etc., emanate from trained scholars of high reputation. Many of them are richly illustrated and, as works of art, reflect credit upon the printers and lithographers. These are all prepared for the diffusion of knowledge among mankind, and the business of the CATALOGUE is to keep all advised of their publication.

A FAMOUS BATTERY AND ITS CAMPAIGNS, 1861-'64.

BY JAMES E. SMITH,

Late Captain 5th Independent Battery, New York Volunteer Light Artillery.

A new book about a battery which distinguished itself in many hard-fought battles, and won glory and renown in the great Gettysburg conflict, where it held the crest of Devil's Den for three long hours against the flower of Lee's Army. The history of this battery from the Peninsula to Gettysburg is the history of the war in the East, and it is told modestly but thrillingly by Capt. Smith, and substantiated by official reports of both Union and Confederate officers, as well as personal reminiscences of participants from other organizations.

It also contains a history of the career of Corporal Tanner in war and in peace, showing how that gallant soldier, after suffering the loss of both legs on the battlefield, and handicapped by wounds and constant suffering, was still able by his indomitable will to make a reputation for himself both as a trusted municipal officer and as Commissioner of Pensions.

A chapter is also devoted to Capt. Jack Crawford, the poet-scout, and the early days in the Black Hills.

The book is a neat 12mo, well bound, 257 pages, and is illustrated with portraits and chapter headings.

"A work which every student must needs possess in its entirety. . . . Dr. Von Holst continues his masterly analysis of events with a power and success which leave little to criticise. . . . The book is so honest and so able and it teaches lessons which our people may profit so much by learning."—*The Nation.*

"The most eminent modern historian."—*The Chicago Evening Post.*

"A masterpiece as to depth, clearness, impartiality, and scope. It seems the testimony of a disinterested witness, one who needed no cross-questioning; one who in the direct narrative omitted no significant detail. In these passing years, when teachers and writers are attempting to kindle new flames of patriotism in old and young hearts, this production is timely indeed."—*David Swing.*

VON HOLST'S

Constitutional and Political History of the United States.

Of vigorous, fearless, just, and profound works, dealing with the Nation broadly and exhaustively from its Colonial beginnings up to within the times of the active men of to-day—that is to say, as late as final history can be written, there is none other than Von Holst's. It is accepted for America as is Stubbs's for England. "It is a book," says Charles Kendall Adams, "that should be carefully studied by every student of American politics." A detailed pamphlet will be sent on request.

Complete, with full index, eight vols., 8vo. Price, per set, cloth, $25.00; sheep, $30.00; half calf, $38.00.

We should like to impress upon the Trade, Librarians, and Book Buyers everywhere the fact that we have more titles of out-of-print books than any other house in America, and that all the books we offer are in good condition and fit for use;

Also that this is the only house able to supply promptly the publications of the United States Government, covering the whole period of its existence—that is to say, PRACTICALLY ALL, for of course a few are entirely beyond reach.

We will supply any information desired concerning these things.
